

Anastasiia Pirus

React Developer

Ambitious and motivated React Front-End Developer with a passion for creating UI effects, animations, intuitive and dynamic user experiences. Skilled in React, JavaScript, HTML, CSS, etc. Having a background in finance and audit I can bring strong analytical, statistical and mathematical problem-solving skills to your team.

Experience

Front-End Developer 08/2022 to Present

Non-commercial

- Developed and maintained responsive web applications and websites.
- Utilized technologies such as HTML, CSS, JavaScript, and React to create visually appealing and user-friendly interfaces
- Developed and implemented front-end solutions that improved website performance, responsiveness, and accessibility
- Continuously updated knowledge of front-end development best practices and trends to ensure the highest quality of work.
- Provide consultations regarding mathematics, geometry, and probabilities for game development projects.

Staff Accountant (Audit) - 06/2022 to 08/2022

KPMG Canada

- Utilized audit software and tools to analyze financial data and identify potential areas of risk or non-compliance.

Auditor (A3) - 09/2021 to 05/2022

Kreston

- Communicated findings and recommendations to clients and internal team members
- Assisted in the development of internal audit processes and procedures

Auditor (A3) – 12/2018 to 09/2021

Baker Tilly

- Conducted financial audits of various clients in the manufacturing and retail industries.
- Managed and trained junior specialists.

Latest Projects:

Banking App

<https://anastasiapirus.github.io/banking-app/>

Fully responsive banking app front-end using React, Styled Components, React smooth scroll, React Hooks and React Router.

SpaceJourney

<https://anastasiapirus.github.io/Dashboard/>

Fully responsive website inspired by Midjourney AI design. I used React and Recharts.

Timer app

<http://apirus.pythonanywhere.com/login>

Fully responsive gamified interactive web app for tracking productivity time. Inspired by Pomodoro techniques this website features adjustable timer and animated interactive achievements based on the time you've tracked. I used Python, Flask, SQLite, HTML, CSS and JS.
